Since 1981

CERATECH
ACCURATUS

In 1981, Ceratech began to manufacture and distribute products within the UK, Europe and the United States before opening a branch office in Paris. The main product portfolio covered EPOS, Industrial and Office peripherals.

Over the following years, Ceratech developed and registered the brand name Accuratus to cater for consumer products whilst launching a number of products into the retail sector. In the 1990's, Ceratech developed a range of products for the OEM channel and continues to partner with some.

Look out for these icons throughout the catalogue:

= the product has the option of being available in USB-C.

= the product is silicon sealed.

= the product is readily available in other languages.

- Environment friendly packaging.

MOUNA-SIL-CWH/CBK

What is NANOARMOUR?

NANOARMOUR contains Silver Nanoparticles which have an antibacterial activity and are proven to help deactivate bacteria including E-Coli & Staphylococcus.

The Silver Nanoparticles are around 1-20nm (nanometre) in size, while bacteria cells are around 100-1000nm. Silver Nanoparticles enter the bacteria cell and release the silver ion to combine with Thiol, Carboxyl and Hydroxyl in-cell to:
- Combine with respiratory enzyme causing suffocation
- Bind with protease enzyme causing indigestion
- Bind with DNA and inhibit cell replication

The Silver Nanoparticles disturb bacteria cell functions, causing the cell to die & inhibiting cell reproduction.

Please contact us if you would like a test report on the technology used.

The Accuratus Curve Touch Bluetooth® mouse is a super slim wireless mouse designed for portability and style. With a unique design that allows the mouse to be layed flat or arched upwards when in use.

• Fold out feet for keyboard tilt to aid with comfortable typing.

Accuratus Toughball V2 Wireless Multimedia Mini Keyboard with Trackball

From its UV coating to its pin sharp optical trackball, the Toughball 2 is a product of beauty. Hook the Toughball up to a PC with an LED projector and be staggered at it's wireless range. Use it with your media center and realise it works from all corners of the room or simply use it as a solid workhorse in the office. Either way, the Toughball 2 will not disappoint.

Comfortable on and off the desk, it's subtle curves and rubberised coating will lock the keyboard on your lap making it far easier to work with than most flat keyboards. The Toughball 2 has a high resolution trackball giving a very precise, extremely durable, and reliable mouse movement.

• Wireless 2.4Ghz (via USB) 'plug and play' connection.
• Compact sized USB receiver with protective USB cover for transportation.
• Soft black case with 2 tone grey and dark grey keycaps, white/blue key legends.
• Shaped case and contoured thumb areas to ergonomically fit on your lap and in your hands.
• Integrated high resolution 800dpi optical plastic trackball for accuracy and excellent response.
• Left and right mouse buttons, extra easy access left button on the right front side of the keyboard.
• Built-in easy access mouse scroll wheel/middle button on the front left side of the keyboard.
• Over 500,000 random and unique wireless ID's to avoid interference.
• Mini keyboard UK key layout including Windows 10 keys.
• Up to 15 metres of wireless range.
• FN key to multiplex some keys for number pad, etc
• 14 Multimedia keys.
• High quality reliable membrane key technology.
• Keys have a soft and tactile feel.
• Low battery indicator.
• Automatic power saving sleep mode.
• Runs on just 2 x AA batteries - Included.

What has been improved on the Toughball 2?
• Precise optical trackball using a plastic ball for improved accuracy and response.
• Improved design allowing shaping for your thumbs so the keyboard is much more comfortable to hold and use.
• More responsive and tactile keys allowing for improved typing.
• Slightly smaller in size so that it is easier to handle and transport.
• Smaller wireless dongle, which should prevent breakages of the dongle (a common occurence we found).
• 2 extra Multimedia buttons, Refresh and Favourites.
• Operates on only 2 x AA batteries (previously 4 x AA batteries).
• Windows 10 keys.
• Reduced packaging, saving the environment with paper and transportation.

## Accuratus 5015 - Professional USB Mini Keyboard with Optical Trackball

TRACKBALL

ERGONOMIC

Accuratus Contour - USB Sculptured Ergonomic Split Key Keyboard

The Accuratus 5015 is a custom build, mini trackball keyboard provides all the tools of a large keyboard and mouse in a very tidy package. The in-built optical trackball and contoured left / right control buttons provide full 360 mouse functionality without wasting desk space. The number pad is highlighted in a blue font and is fully incorporated within the keyboard.

The Accuratus 5015 is the ideal companion for any busy user who needs all the tools without cluttering their desk space.

• USB 'plug and play' wired connection.

• Embedded numeric keypad in blue key legends, accessible using the FN key.
• High resolution printed key legends with UV coating for enhanced durability.
• UK Windows keyboard layout. (Other languages available on request).
• Keys have a soft and tactile feel allowing for comfortable and natural typing.
• Integrated high resolution 15mm 800dpi optical trackball.
• Left and right tactile mouse buttons.
• Compact and slim design, all in one solution perfect for EPOS, Retail, Servers / other space limited situations.
• Caps / Num and Scroll Lock status LED's.

KYBAC5015-USBBLK

The NEW Contour keyboard from Accuratus has been designed to provide a comfortable and dynamic hand position with the ergonomic reverse tilt, achievable using the fold out feet at the front of the keyboard, split keys, and sculpted design. The natural relaxed placement of the hands on the keyboard and the wide wrist rest are ideal for those who want to type in comfort with a neutral wrist position.

Pair the Contour with optional Accuratus 100 numeric keypad (KYBAC100-00BLK), and Accuratus Upright 2 Mouse (MOU-UPRIGHT2-BLK) for the ultimate ergonomic desktop set.

• USB wired 'plug and play' connection.
• Black case and keys (other colours made on special request).
• Sculptured and contoured design, shaped to fit the natural position of your hands and finger tips.
• Split key keyboard layout, offering a natural arc typing position for wrists to aid with RSI and Carpel Tunnel Syndrome.
• Integrated wrist pad shaped to follow the ergonomic design of the keyboard and to support wrists comfortably.
• Designed with reverse tilt feet fitted at the front of the keyboard, meaning the keyboard angle can be set to a subtle reverse tilt so that wrists are in a natural position.
• Low profile tactile keys which have a high life cycle membrane key mechanism.
• Compact UK key layout with integrated multimedia functions (other language layouts available on request).
• Keycap printing is UV coated, just like on laptop keyboards to offer a very long life and prevent character wear.
• Clear easy read key legends.
• FN key to multiplex some keys, eg the multimedia functions.
• Integrated multimedia keys for Media Player, Volume control, Media control and playback, E-mail, Internet, Calculator and PC Lock. The Windows keys functions can also be locked via a simple shortcut if required.

• Full UK 105 key layout.
• Fully sealed IP68 design, 100% waterproof.
• Compatible with all hospital disinfectants.
• Status LED's (Caps, Num & Scroll Lock).

What is NANOARMOUR?

NANOARMOUR contains Silver Nanoparticles which have an antibacterial activity and are proven to help deactivate bacteria including E-Coli & Staphylococcus.

The Silver Nanoparticles are around 1-20nm (nanometre) in size, while bacteria cells are around 100-1000nm. Silver Nanoparticles enter the bacteria cell and release the silver ion to combine with Thiol, Carboxyl and Hydroxyl in-cell to:
- Combine with respiratory enzyme causing suffocation
- Bind with protease enzyme causing indigestion
- Bind with DNA and inhibit cell replication

The Silver Nanoparticles disturb bacteria cell functions, causing the cell to die & inhibiting cell reproduction.

Please contact us if you would like a test report on the technology used.

The 104V2 Smart card is a high spec keyboard with internal scissor key structure to offer excellent tactile typing and a long lifespan. Beneath the silicone latex free fully waterproof covering is a full plastic keyboard. Located on the top right side is a Smart card reader, perfect for access control within the NHS, GP surgeries, and other security protected computers.

Our Accumed range have all been designed so that there are no areas around the keys and buttons where dirt and germs can collect. The AccuMed 104V2 is quick and easy to wipe clean, the perfect combination to aid with bacteria, virus, fungi, and algae control.

• Black case and keys (other colours made on request).
• 15KV ESD Air Discharge rated.
• Mini UK key layout.
• FN key to multiplex some keys for number pad.
• Keys have a soft and tactile feel to allow for comfortable and natural typing.
• Slim true scissor key, key mechanism.
• Clear easy read key legends.
• Integrated high resolution touchpad with left and right mouse buttons.
• Status LED's (Caps, Num & Scroll Lock).
• Designed with an internal metal plate to enhance the protection against ESD.

KYB500-K82B-15KV

Accuratus K82A - USB Mini Scissor Key Keyboard

The Accuratus K82A mini keyboard has been specially designed for meeting high spec requirements. Boasting one of the smallest footprints out of all Accuratus keyboards, the K82A is perfect for situations where space saving is essential. The keys are scissor key design, giving you a very soft and tactile touch for hours of comfortable typing.

Fold out feet are on the rear, allowing users to adjust the keyboard to suit their own preferences. With all these features, top quality design, and tough durability, the K82A is an ideal keyboard for every situation; office, home, POS, and industrial purposes.

• USB 'plug and play' connection.
• Available in off white or black (other colours made on request).
• Mini UK English key layout (other languages readily available).
• FN key to multiplex some keys for number pad.
• Keys have a soft and tactile feel to allow for comfortable and natural typing.
• Slim true scissor key, key mechanism.
• Clear easy read laser etched key legends.
• Fold out feet to allow for keyboard tilt.
• Status LED's (Caps, Num & Scroll Lock).
• Designed with an internal metal plate to enhance the protection against ESD.

Accuratus K103A 15KV - USB Compact Scissor Key Keyboard with Numeric Keypad & 15KV ESD Air Discharge

The Accuratus K103A 15KV is a compact keyboard specially designed with a 15KV ESD Air Discharge rating for meeting high spec requirements. The K103A has an integrated numeric keypad on the right for easy number crunching, yet still boasts a small footprint, perfect for situations where space saving is essential such as EPOS and Retail.

The keys on this keyboard are scissor key design, giving you a very soft and tactile touch for hours of comfortable typing and an extremely long durable lifespan.

• USB 'plug and play' connection.
• Black case and keys (other colours made on request).
• Compact UK key layout (other languages are also available).
• Keys have a soft and tactile feel to allow for comfortable and natural typing.
• Slim true scissor key, key mechanism for a long lifespan.
• Clear easy read extremely durable UV coated key legends (just like laptop keys).
• Integrated numeric keypad for easy number crunching.
• Status LED's (Caps, Num & Scroll Lock).
• Designed with an internal metal plate to enhance the protection against ESD.

KYB500-K103-BK

Accuratus AC82B - USB IP68 Fully Sealed Washable Mini Scissor Key Keyboard with Touchpad

The Accuratus AC82B mini keyboard is specifically designed for environments which have to meet very high hygienic requirements. Boasting a small footprint, integrated touchpad, and tactile internal scissor keys, the AC82B is an all in one keyboard solution.

The AC82B has been designed so that there are no areas around the keys and buttons where dirt and germs can collect. The AC82B is quick and easy to wipe clean - the perfect design to aid with bacteria, virus, fungi, and algae control.

• USB 'plug and play' connection.
• Black case and keys (other colours made on request).
• Fully sealed IP68 design, 100% waterproof.
• Compatible with all hospital disinfectants.
• Mini UK key layout (other languages available on request).
• VESA mounting pattern on the rear of the keyboard.
• FN key to multiplex some keys for number pad.
• Keys have a soft and tactile feel to allow for comfortable and natural typing.
• Slim true internal scissor key, key mechanism.
• Clear easy read key legends.
• Integrated high resolution touchpad with left and right mouse buttons.
• Status LED's (Caps, Num & Scroll Lock).
• Easy to clean with a wet cloth or in water.
• Fully sealed silicone casing, dust, water and chemical resistant, IP68 rated.
• Designed with an internal metal plate to enhance the protection against ESD.

Accuratus K82E - USB Ruggedised Mini IP65 Keyboard with Backlit Red Keys

PROGRAMMABLE KEYBOARDS

The Accuratus K82E is a mini keyboard based on our K82A model, but with a special sealed ruggedised rubber keyboard designed specifically for environments which are dusty, dirty and wet. The K82E's keys - although slimline and rubber - are still very tactile for touch typing, and extremely durable to alcohol cleaning solutions when used in a medical environment. The low profile ruggedised keys allow for simple and easy cleaning so to prevent any build up of dirt and germs.

All key legends on the K82E have red illumination, with 8 levels of brightness, this keyboard can be used in low light or complete darkness with no problem seeing any of the key legends.

• USB 'plug and play' connection (PS/2 connection available on request).
• Black case and keys (other colours made on request).
• Mini UK key layout including buttons to adjust backlight brightness.
• FN key to multiplex some keys for a numbER PAD.
• Keys have a tactile feel to allow for comfortable and natural typing.
• Durable and ruggedised low profile keys, allow for simple and easy cleaning.
• Red LED backlighting, with 8 levels of backlight illuminating each key legend.
• Clear easy read key legends, easy to read even in complete darkness.
• Durable against alcohol cleaning solutions when used in a medical environment.
• Designed so that there are no areas around keys that dirt and germs can collect.
• Same dimensions as our K82A keyboard.
• Sealed silicone casing, dust, water and chemical resistant, IP65 rated.
• Status LED's (Caps, Num & Scroll Lock).

KYB500-K82E-BLK

The Accuratus range of programmable keyboards can all be fully customised and mapped. All of our programmable keyboards can be programmed using our free "Matrix Maker" software, which can be downloaded for free from www.ceratech.co.uk.

Each individual key can have up to **eight layers of programming**, and once programmed, the layout stays within the keyboard itself - allowing it to be plugged in and used on any device, no Matrix Maker software necessary!

S24A - USB Keypad with 24 Programmable Cherry MX Keys

• USB connection - Plug and Play.
• Black case and keycaps.
• 24 Relegendable fully programmable keys.
• Key layout can be changed using double and quad keys (can be purchased seperately).
• Cherry MX Black mechanical keys for extremely long life.
• Each programmable key can have up to 8 layers of different programming.
• True keyboard wedge function.
• Caps,Scroll and Num lock functions are independent of other keyboards connected.
• Internal metal plate for increased protection against ESD.
• Compact and slim design.

S24B - USB Keypad with 24 Programmable Keys

• USB connection - Plug and Play.
• Black case and keycaps.
• 24 Relegendable fully programmable keys.
• Key layout can be changed using single and double keys (can be purchased separately). Pre printed number cap keytops are included (0-9, enter, + and .).
• EPOS grade membrane keys.
• Each programmable key can have up to 8 layers of different programming.
• True keyboard wedge function.
• Caps, Scroll and Num lock functions are independent of other keyboards connected.
• Internal metal plate for increased protection against ESD.
• Compact and slim design.

S35A - USB Keypad with 35 Programmable Cherry MX Keys

• USB connection - Plug and Play.
• Black case and keycaps.
• 35 Relegendable fully programmable keys.
• Key layout can be changed using double and quad keys (2 doubles are included).
• Cherry MX Black mechanical keys for extremely long life.
• Each programmable key can have up to 8 layers of different programming.
• True keyboard wedge function.
• Caps,Scroll and Num lock functions are independent of other keyboards connected.
• Internal metal plate for increased protection against ESD.
• Compact and slim design.

Accuratus K82D - Premium Mini Scissor Keyboard with Trackball

Accuratus K82F - USB Ruggedised Mini IP55 Keyboard

The Accuratus K82D mini keyboard is specially designed for meeting high spec requirements. Boasting one of the smallest footprints out of all Accuratus keyboards, the K82D is perfect for situations where space saving is essential. The keys on this keyboard are scissor key design, giving you a very soft and tactile touch for hours of comfortable typing.

The K82D has an integrated trackball with left and right mouse buttons giving the complete keyboard and mouse combination. With all these features, top quality design and durability the K82D is an ideal keyboard for every situation.

The K82F is touchpad keyboard based on our K82B model but with a special sealed rubber keypad designed specifically for use in harsher environments. The K82F's keys - although are slimline and rubber - are still perfect and tactile for touch typing, and can withstand most things you throw at it! It's made of a high quality rugged material which offers the perfect combination of practicality, durability, comfort, and flexibility.

The unique material allows you not only to clean the keyboard with soap and water, but with common hospital disinfectants. With the keys being so slimline, there are virtually no areas for bacteria to hide and grow under.

S60C - Mini EPOS Keyboard with MSR, Keylock, and 60 Cherry MX Keys

• Available in USB or PS/2.
• Detachable USB/PS/2 cable.
• Black case and keycaps.
• Mini keyboard size.
• 60 Relegendable fully programmable keys.
• Cherry MX Black mechanical keys for extremely long life.
• Each programmable key can have upto 8 layers of different programming.
• Multi-level keylock with 6 settings (Lock, Op, X, S, Z and Prg).
• 3 Track fully programmable MSR - Complies with ISO7812, IBM standards and American driving license.
• True keyboard wedge function.
• Caps,Scroll and Num lock functions are independent of other keyboards connected.
• Internal metal plate for increased protection against ESD.
• Compact and slim design.

S60D - PS/2 Mini EPOS Keyboard with LCD, Keylock, and 60 Cherry MX Keys

• PS/2 connection - Plug and Play - PS/2 cable for keyboard part and Serial cable for LCD display.
• Detachable PS/2 cable.
• Mini keyboard size.
• 60 Relegendable fully programmable keys.
• Cherry MX Black mechanical keys for extremely long life.
• Each programmable key can have upto 8 layers of different programming
• LCD display with adjustable viewing angle.
• Multi-level keylock with 6 settings (Lock, Op, X, S, Z and Prg).
• True keyboard wedge function.
• Caps,Scroll and Num lock functions are independent of other keyboards connected.
• Internal metal plate for increased protection against ESD.
• Compact and slim design.

S69A - USB Mini EPOS Keyboard with MSR, Keylock, and 12 Programmable Keys

• USB connection - Plug and Play.
• Detachable USB cable.
• Black case and keycaps.
• Mini keyboard size.
• Mini layout QWERTY section and 12 Relegendable fully programmable keys.
• POS grade durable membrane keys.
• Each programmable key can have up to 8 layers of different programming.
• Multi-level keylock with 6 settings (Lock, Op, X, S, Z and Prg).
• 3 Track fully programmable MSR - Complies with ISO7812, IBM standards and American driving license.
• True keyboard wedge function.
• Caps,Scroll and Num lock functions are independent of other keyboards connected.
• Internal metal plate for increased protection against ESD.
• Compact and slim design.

KYB500-K82D

• USB 'plug and play' connection.

Accuratus C202A - USB 3 Track Fully Programmable MSR Card Reader with Status LED

The Accuratus Magnetic Card Reader is powered directly from the USB interface port without the need for an additional power supply unit. Bi-directional reading allows for full control and data access whilst conforming to full Health and Safety regulations. The green status light indicates a successful read each time and the non-slip rubber feet secure the reader firmly in use.

• USB connection & powered via USB.
• 3 Track fully programmable MSR - Complies with ISO7812, IBM standards and American driving license.
• The MSR is fully programmable with our free Matrix software, this allows full programing of all features on the MSR. The programming is stored inside the keyboard, once programmed the keyboard can be plugged into another computer and all programming will still be the same, the programming software does not need to be installed on every computer.
• Black chassis (off-white also available on request).
• Status LED (Ready, Processing, Error).
• Bi-Directional MSR.
• Compact and slim design.

Accuratus Portable Intelligent Power Station

Never worry about running out of power again, with the Accuratus portable power station suite. Every model has a LiFePO4 battery which are proven to last longer than standard lithium batteries, and with our live power usage and battery capacity display, you'll always know exactly how much power you've got left.

Our Alternative Energy Power Station uses an isolated circuit design for the USB ports so even when you use them all at the same time, they wont interfere with each other. Fast charging function can be activated at the same time

Our USB foot pedals are designed to allow the user control of their computer. Our 5mm key switch technology pedals are designed to assist where a keyboard or mouse alone is unfeasible. Some of the many applications include transcription, factory testing, controlling instruments, streamlining office work, playing games, controlling audio, speech therapy, and more.

Available as a single pedal or a 3 pedal option, our pedals can be used by feet or limbs for efficiency. They are the equivalent to a standard USB keyboard and mouse, and are fully customizable by using our software to define the foot press as a specific key, key combination or mouse action - no other software is required. Each pedal is fully programmable via our software and the programming is stored within the unit via a re-writable EEPROM - if required, multiple foot pedals can be connected to a single computer.

We also have a wireless version! The Accuratus BTX1P can be connected to various Bluetooth® enabled devices such as PC's, Phones, and Tablets. The BTX1P comes with an additional USB cable for programming the pedal output.

• Available with a capacity of 600, 1200, 1800, or 2400W.
• Uses a LiFePO4 cell battery.
• Multiple inputs, including a DC 12 - 30V and a 12V car charge port.
• Multiple outputs, including a 230V AC port, a 12V/10A car port, and USB A & C ports.
• Optional wind turbine and solar panel for extra charging.
• LED soft lighting.
• MPPT System for Solar Panel charging.
• Intelligent HD LCD screen.
• Isolated USB ports working independantly from each other.
• Accurate battery capacity display

Accuratus Monocrystaline Silicon Solar Panels

Accuratus Rechargeable 1.5 V Lithium Batteries

The Accuratus Solar Panels are the perfect accompaniment to our portable power stations. Using a monocrystaline silicon cell (proven to have the highest efficiency and power capacity on the market), and MPPT technology, these solar panels are an excellent addition to your economic lifestyle.

Make throwing batteries away a thing of the past. With the Accuratus rechargeable lithium batteries, you can do your bit for the planet by reducing battery waste in landfills - all while using our efficient, easy to use batteries.

Whether you need AA, AAA, or Type C Batteries - Accuratus has got you covered.

Accuratus X3P - USB Programmable 3 Button Foot Pedal

MOU-USBPEDAL-X3P

• Available in either 100 or 200w.
• Solar panels can be easily folded away into a carry case, becoming extremely portable.
• Straps on rear of solar panels fold out to become legs which hold the panel upright.
• Uses a monocrystaline silicon solar cell, the most efficient on the market.

AA 1.5V ECO-Friendly Batteries
• 1800mAh Battery Capacity.
• 1.5 hours to fully charge using fast charge.
• Cyclic charging - 1000 times.
• Input current: 500mA.
• USB C port for quick and easy charging.

AAA 1.5V ECO-Friendly Batteries
• 400mAh Battery Capacity.
• 20 minutes to fully charge using fast charge.
• Cyclic charging - 1000 times.
• Input current: 200mA.
• USB C port for quick and easy charging.

Maxess Switch Mounts

Developed in partnership with therapists and switch users, the Maxess Switch Tray and Switch Mounts enable hand switches to be securely positioned and repositioned in the most efficient and comfortable way for the switch user. They are ideal assessment and therapy tools with a robust and lightweight wipe-clean design. Can be used on both a desktop or a wheelchair tray. They are light, strong and the switch wires can be tidied away.

Many switch users have greater control if their switch is placed at an angle. Used with the Maxess Switch Tray, these mounts offer an immense variety of positioning options. Each mount enables the switch to be secured in two positions - sloping and right angle. Available in three sizes. A hook dot fixing pack for one switch is included.

• Small Switch Mount
Ideal for 'Specs' type switches or any small hand switch.
Sloping surface: 65mm x 70mm

• Medium Switch Mount
Ideal for 'Jelly Bean' type switches or similar.
Sloping surface: 80mm x 90mm

• Large Switch Mount
Ideal for larger type switches or similar.
Sloping surface: 105mm x 135mm

Maxess Switch Trays

A switch tray holds switches or switch mounts firmly in almost any position. Ideal for use with an individual or in assessment situations where a wide variety of secure switch positions need to be tried. We offer three sizes:

• The small tray has an overall size of 240 x 360mm (pad is A4) and is ideal where space is limited or for a single switch user. iPad slipping? Our small switch tray is the perfect solution!

• Medium tray which fits many wheelchair trays has an overall size of 350 x 350mm.

• Large, the original desktop tray with an overall size of 540 x 290mm.

KYB500-CMX-1X1   KYB500-CMX-1X2   KYB500-CMX-2X2

We can make ANYTHING.

Over the years, Ceratech have created many different kinds of bespoke products for retailers across the globe. Get in contact with your request - no matter how unique - and we will make it for you!

Branding is important.

Building a brand takes time, energy, and creativity - and a company logo is part of the story of your brand. Your logo makes a significant impact on your company's public perception. It is the foundation of your brand identity, fosters loyalty, and is what your customers think of when they think of you.

At Ceratech, we understand the benefits of consistent, strategic branding - and want to help you reach the heights you deserve! Through our OEM & bespoke manufacturing, we can add your logo to any of our existing or bespoke products - just get in touch and let us know!

Ceratech offer Retail, White, or Brown Box solutions - or consolidated OEM format.

Brown Box – Have all the products with your logo printed on an attached label and plain outer packaging.

White Box – Have all the products with your printed logo, instruction manual, Serial Number and bespoke packaging.
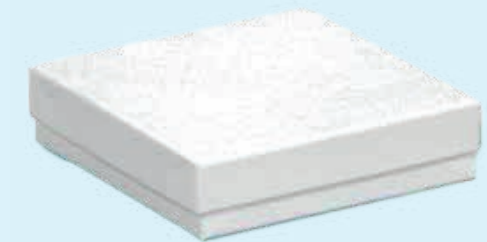

If you want your own design product carton, our graphics team can help by providing artwork to suit. All options are provided with your own company part number, EAN and company name on the product carton. Additional information can be added if required.
If you want to discuss your possibilities further, give us a call and one of our team can talk you through all the options.

ORIGINAL EQUIPMENT MANUFACTURER

OEM/BESPOKE

Our engineers tailor every OEM project to your specifications, and work alongside you every step of the production process - ensuring the product meets your needs and standards.
