

Three wheels – for your safety and comfort

Owning a tricycle from Jørn Iversen equals more freedom. Freedom to move around, at your own pace, in your own time. And without worries for your own safety.

Take a ride, go shopping, visit family and friends, or enjoy a trip in the nature. Listen to the birds, go fishing – do whatever you fancy.

A tricycle offers you a high degree of safety and comfort. Go anywhere without worries. Don't mind the kerbs or bumps – you negotiate almost any obstacle, sometimes even safer than one would on a bicycle.

Take a look at the beautiful design! Timeless. Smart. Smooth. Beautiful colours. And 'under the hood' – top of the range technology. Drum brakes. Three or seven gears, and reverse, too. Lightweight materials. Durable state-of-the-art paint. Even with an optional assisting electric motor, if you choose.

Viktoria tricycle – everyone can enjoy the ride

- Users who are not comfortable cycling with 2 wheels
- People who need more stability and slow driving
- Users with reduced muscle power
- Users with reduced mobility
- Users with hemiplegia
- Users with Parkinson's disease
- Users with scleroses
- Users with brain injury
- Users with knee and back injury

Danish made. Danish design.

Viktoria

Viktoria

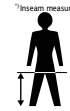

The Viktoria tricycle combines dynamic design, comfort and safety

- Low mounting height
- You sit straight up, making the ride comfortable and giving you an excellent view of the traffic
- Modern user-friendly design for easy access and safe cycling
- Built from quality parts
- Easy to push
- Easy and safe driving over the kerbs
- 3 or 7 gears makes cycling easy, even uphill
- Reverse gear makes parking easy
- Sealed ball bearings prevent dirt and moist to enter the hubs

- Parking brake
- Drum brake at the front wheels, hub brake at rear wheel
- Comes in modern and warm colours: green, pink or royal blue

The illustrations may show extra accessories.

Features

Stability in the curves

The tricycle heels when you make a turn, just like a two-wheel bicycle does.

Excellent view of the road ahead

Two front wheels give you a good view of the width of the cycle. You know exactly where you are, and you are much safer when negotiating obstacles like kerbs, potholes, ramps etc.

Strong coating

The frame is coated with a strong 4 layer powder paint which makes it resistant to all kinds of weather.

Accessories

Handlebar basket

Reverse gear

Union pedal with Velcro

Crutch holder
