

DESIGNED FOR THE GREAT OUTDOORS

ALL-TERRAIN BUGGY

LIVE LIFE TO THE FULL

Designed and Manufactured  
in the United Kingdom by  
Delichon Ltd

## ALL-TERRAIN BUGGY

### Designed to be different

Designed and hand built by Delichon, one of the UK's leading special seating companies, the Delta All-Terrain Buggy goes where others can only dream of.

Lightweight, rugged and compact when folded this off-road all-terrain 3-wheeler offers access to the great outdoors in a range of sizes for children and adults with mobility problems. The unique multi-position rear axle allows optimum set-up of dynamic stability and balance making the Delta easy to push and manoeuvre.

**"S is delighted and she can now enjoy our frequent cross country walks and visits to the coast."**

**"The attention to detail and service we received today was beyond impressive, nothing was too much trouble. The showroom is large, bright and modern, and, the one to one attention unexpected and extremely welcome. A perfect sales experience."**

**"We live in a rural area and this new buggy has made getting out and about so much easier for T. We have been able to go further afield and he has already had 'all terrain' adventures locally."**

Run

Bike

**"After finally coming to terms with the fact that my daughter was just too big for our beloved M2, yesterday we made the trip down to the factory to buy her a new one. The fact that our M2 has lasted 10 years and is still going strong meant it was an easy decision to upgrade to the L2. Thank you Delichon team for being so lovely."**

## ALL-TERRAIN BUGGY

# SIZES AVAILABLE

Available in six sizes, the smallest is suitable for children up to 112cm high, the largest up to 195cm high.

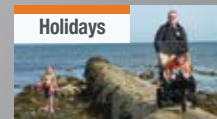

Delta Buggy Frames	Small		Medium		Large		XL

<b>Seat depth:</b>	28cm	28cm	32cm	34cm	38cm	42cm	
<b>Backrest height:</b>	72cm	74cm	76cm	82cm	88cm	98cm	
<b>Seat Width:</b>	30cm	30cm	32cm	34cm	38cm	38cm	
<b>Maximum occupant height:</b>	112cm	120cm	150cm	160cm	180cm	195cm	
<b>Maximum occupant weight:</b>	40kg	50kg	50kg	70kg	70kg	90kg	
<b>Weight of Buggy:</b>	13kg	14kg	14kg	14kg	14kg	16kg	

“I received the pushchair today (thanks for getting it out so quickly) and just wanted to say how wonderful it is! O instantly fell in love with it and said it was her favourite pushchair ever and she’s had quite a few!”

“We recently bought an All-terrain Buggy for my 85 year old mother. It is a brilliant piece of technology and exactly what we had hoped it would be. The thing my mother missed was the ability to go for walks in the countryside. She can now do it again and in comfort.”

NOTE: the fabric seat dimensions change when someone sits in it; a larger range of occupants can be comfortably accommodated than is suggested by the seat width and depth measurements.

## ALL-TERRAIN BUGGY

# STANDARD DELTA BUGGY FEATURES

Delichon's customary attention to detail has created an exceptional all-terrain buggy boasting a wealth of safety and comfort features for carer and occupant alike:

"Delta arrived today and we went for a lovely walk up our local hill to see the castle, with much less effort than normal and a very happy sitting position for D, so thanks very much!"

- **Swing out anti-tipper** - for safety when transferring

# THE DELTA TRAIL

Delichon's Delta Trail is an innovative adaptation which converts either a Small or Medium Delta All-Terrain Buggy into a bicycle trailer.

The Delta Trail conversion allows you to change your existing Delta into a high performance cycle trailer. Simply remove the front wheel and use the Trail linkage to convert your everyday Delta into a new experience. Suitable for small, medium and large Deltas for users up to 45kg. This allows you to tow your buggy safely behind most bikes.

- Easily fitted to existing small or medium delta buggy frames
- Fits directly to buggy frame without modification
- Multi axis linkage for manoeuvrability
- "Fall-safe" design isolates the bicycle from the buggy in the event of an accident
- Removable roll bar for head protection
- Front wheel when removed can be stored in buggy basket
- Easy to switch back to standard 3-wheel configuration
- Fits most adult size bicycles
- Supplied with adaptors for a range of seat-post sizes
- Additional bike attachments available so more than one bike can be used for towing

Complete Delta Trail

Tow Bar

Saddle Post Mount

Buggy Attachment

## ARRIVING SOON...

### Delta Run

Larger diameter rear wheels with narrow tyres reduce the rolling resistance and the different frame design gives greater stride space on this version of the Delta which is optimised for running.

### Delta Recline

Offering an adjustable backrest position for those who need a more open hip angle, the Delta Recline also includes a clever pocketed canvas design which allows additional postural support to be added for clients with more complex seating requirements.
