## *M2 Mini shower/commode*

M2 Mini series is developed and designed for children and small adults who are difficult to place in a standard chair.

The chairs are ideal for children, as several parts of the chairs can be adjusted as the child grows.

In this way the chair can be a stable aid in the user's daily life for many years. Since it does not need to be replaced as the user grows.

There is not talked about 5 various sizes are to be replaced as the user growing, but rather a product that is so flexible that it can follow child development day by day.

## ***M2 Mini shower/commode***

Even small adults are very pleased to make use of the chair.

The seat is made of soft PU foam incorporating a bucket holder.

Is provided standard with a cover, so it is also possible to use only chair as a shower chair with no hole in the seat.

All M2 Mini shower / toilet chairs are supplied with a holder for headrest and supports.

See accessories in this brochure to read more.

The chair comes with 100 mm wheels, height adjustable in 5 positions.

The wheels are in stainless steel and has an effective threadguard which stops the dirt and hair from getting into the axis. The wheels also have double action brakes.

## *M2 Mini shower/commode*

The backrest is made of netweave so that the water can penetrate the fabric.

There are sewn 3 buckles on the back, so it will be possible to obtain an optimal adaptation to the individual user.

The backrest can be removed and washed separately by opening the buckles in the back.

It is possible to adjust the armrests as the user grows.

The armrests can be variably adjusted from 15.5 cm to 28.5 cm (measured from the seat).

To make maneuvering easier the helper, the push handles are height adjustable and it is possible to push them to the side.

## ***M2 Mini Standard***

**M2 shower / commode is the chair for children and small adults.  
It is particularly flexible regarding the adjusting the settings.**

This chair is the ideal shower / commode for smaller users, children and small adults.

Many of the parts on the chair can be adjusted as the child grows, so that it can be a stable support in the everyday user for many years.

Notice: The chair in the picture is shown with accessories.

The chair is designed in such way that it grows with the child.

There follows as standard a cover with the chair so that it can be used for both shower and toilet function.

## *M2 Mini Rear wheel*

M2 shower / commode for children and small adults are using the rear wheels can be much more independent of the helper.

Like the M2 Mini standard, this chair is incredibly flexible regarding the adjusting the settings, and is therefore an ideal chair for a child into adulthood.

M2 Mini Rear wheels are specifically designed for children and small adults who want more independence from the helpers.

Notice: The chair in the picture is shown with accessories

The chair is height adjustable in 3 positions.

The front wheels are height-adjustable via clips, and the rear wheel, as shown in the picture adjusted in three different settings using a wrench.

On the M2 Mini Rear wheels is mounted an anti-tip protection for safety reasons.

It can also be used as a stomp pedal.

## ***M2 Mini Gas-tip***

**M2 shower / commode for children and small adults with gas-tip.  
The easy path when service users must be tilted.**

M2 Mini Gas-Tip has a gas spring which supports the helper when a service user needs to be raised to a horizontal sitting position.

Due to that the gas spring supports the way of movement from tilted to horizontal position.

This provides incredible ease of use, with even heavier users.

Notice: The chair in the picture is shown with accessories

The brakehandle sits to the left side on the chair.

It is easy to use the brakehandle to tip the chair.

If you want a lockable armrests on a standard chair, this can be purchased along with the chair, or you can buy a set of armrests with lock.

These armrests are only supplied with PU foam.

## M2 Mini El-tip

M2 shower / commode for children and small adults who are difficult to place in a standard chair.

Notice: The chair in the picture is shown with accessories

The stepless tilting, together with the wide range of accessories, ensuring that the user will sit safely in the bath and toilet situation.

The seat can be tilted 37 degrees backward and 7 degrees forward, using a built-in electric motor with manual override.

The simple remote control makes it easy to operate the chair, even without training or instructions.

If you want a lockable armrests on a standard chair, this can be purchased along with the chair, or you can buy a set of armrests with lock.

These armrests are only supplied with PU foam.

Footrests to Mini  
Art. no.: 310510

Standard footrests to M2  
Art. no.: 310049

### **Height adjustable footrests**

The height-adjustable footrests can with a handle swung to the side or in front of the chair. The base plate can also be folded up to provide more space.

They are available in a mini version (31-41) cm from the edge of the seat to the base plate) & a standard. (39-51).

Height adjustable footrests  
Art. no.: 313041

### **Height- and angle adjustable footrests**

Height adjustable and angle adjustable footrests.

The height and angle is easy to adjust without the use of tools and a bushing in the footrest holder ensures that the footrests are mounted secure.

The height adjustability of the footrest and the angle adjustability of the footplate ensures optimal positioning of your feet.

The footrests fit on the M2 chairs with the exception of M2 200 kg and M2 300 kg.

## ***M2 Mini Accessories***

### **Calf support**

The calf support is especially recommended for tip-chairs as it prevents the legs of the user from falling back.

The calf support is made with velcro which makes it depth adjustable. It supports the entire lower leg which provides safety for the user.

Calf support  
Art. no.: 310226

### **Footrests with heel straps**

Height adjustable footrests with heel straps that prevent the user's feet from sliding when tilting the chair.

With heel straps the footrests can still be pushed aside.

Footrests with heel straps  
Art. no.: 310285

### **Urin funnel**

The urin funnel is made for people who have problems urinating into the toilet.

The urin funnel is used by placing the narrow end facing down towards the toilet, or as to help prevent the person from urinating on the floor or on the toilet seat.

Urine funnel  
Art. no.: 148861

### **Direction Fixed wheel**

The chair can be supplied with a direction fixed wheel (dark gray brake pedal).

This facilitates maneuvering, and initiation of the chair and ensure that carers' health and safety are protected.

Supplement for the chair comes  
with 1 direction fixed wheel;  
Art. no.: 800157

## ***M2 Mini Accessories***

---

### **Side support**

Suitable for people who lack support in the right, left or both sides.

The side support is adjustable in height, width and depth, so people who do not fill the chair can be supported closer to the body.

In the case of very tall people, the side supports reversed thereby giving support higher up.
