You came to the right place!

RCN Gurneys can be used for showering and transferring patients in and out of the shower room. Models of the UDL Series offer customary RCN quality at a very affordable cost – a true alternative for tighter budgets. Their sturdy frames, made with RCN specific plastic components, are built to support high load factors while being lightweight and offering exceptional longevity. The soft tub-liner offers comfort, is easy to disinfect and to clean. The drain hole can be closed, allowing the tub-liner to be filled with water and giving the user a feel of bathing.

A large evacuation tube (90 cm long) ensures controlled water evacuation. Both side rails drop down for easy transfer. For even easier transfer consider adding a roll-board, shown on page 41. Single-wheel swivel casters - all locking and guaranteed NO RUST, ensure high mobility.

- Affordable
- Easy and smooth in-house transfers
- Comfortable due to padded tub-liner
- Guaranteed NO RUST
- 3 year warranty
- 5 year warranty on RCN specific plastic frame

UDL 1500

- Drop-down side rails
- Padded liner
- Large drain hose, 90 cm long
- Single-wheel swivel NO RUST casters - all locking
- RCN specific plastic frame
- Supports up to 150 kg
- For persons with 182 cm in height
- Shoulder width 61 cm

Shower- and Transfer Gurneys

UDL 1500 DK

- Drop-down side rails
- Padded liner
- Large drain hose, 90 cm long
- Single-wheel swivel NO RUST casters - all locking
- RCN specific plastic frame
- Supports up to 150 kg
- For persons with 182 cm in height
- Shoulder width 61 cm
- Wedge pillow DK

UDL 1500 VR

- Drop-down side rails
- Padded liner
- Large drain hose, 90 cm long
- Single-wheel swivel NO RUST casters - all locking
- RCN specific plastic frame
- Supports up to 150 kg
- For persons with 182 cm in height
- Shoulder width 61 cm
- 6 position backrest adjustment VR

Small, pediatric Shower- and Transfer Gurneys

UDL 500

- Drop-down side rails
- Padded liner
- Large drain hose, 90 cm long
- Single-wheel swivel NO RUST casters - all locking
- RCN specific plastic frame

Ideal for easy transfers, glides smoothly, helps avoid back pain and physical stress in moving heavier and less mobile patients from bed on to a gurney and back

- Board made of Polyethylene
- Cover made of Nylon
- Supports up to 200 kg
- TRB 180: 180x50 cm
- TRB 195: 195x50 cm

The stainless Shower Gurney – height adjustable

The Series UDW Shower Gurneys from RCN are ideal for transporting and showering patients. Via foot pedals on both sides, the deck height can be adjusted from 49 to 89 cm. The soft tub-liner offers comfort, is easy to disinfect and to clean.

Side- and foot end rails drop down, allowing easy transfer for persons with reduced mobility. The head end rail can be put in a lateral position to extend the length of the deck by 15 cm. A manually activated pneumatic-spring assists to move the deck into a Anti- /Trendelenburg positioning.

Large drain hose ensures controlled water evacuation. Ø100 mm twin-wheel swivel casters - 4 locking - offer easy transport and great mobility. Models with the option VRW include a continuously adjustable backrest by a manual spindle drive.

- Continuously adjustable backrest option VRW
- Drop-down side- and foot-end rails
- Lateral deck extension
- Height adjustable from 49 to 89 cm
- Anti- /Trendelenburg positioning
- Guaranteed NO RUST

Unbeatable in quality, performance and total cost of ownership !

UDW 2500

Flat plastic deck, backrest not adjustable (not pictured)

- Drop-down side- and foot-end rails
- Lateral deck extension
- Soft tub-liner with drain hose, 90 cm
- Height adjustable from 49 to 89 cm
- Anti- /Trendelenburg positioning
- Supports up to 200 kg
- For persons with 185/200 cm in height

Customized solutions – not a problem!

Custom built

We are your partner when you need a solution for a special need. We listen intently, discuss with you what you need and work out potential solutions. Then our specialized team of engineers works out the details and prepares drawings for you to approve. This way you can be sure to receive exactly the product you need.

Due to the RCN modular construction we can not only act quickly but also offer affordable product solutions.

Custom built Shower Gurney

Here is a picture of the finished product, manufactured based on the drawings above.

The requirements came from a narrow bathroom space and a narrow bathroom door.

Our solution: a shorter base frame and a deck to fit the height of the patient. Side rails are in a vertical position to fit through the narrow door and special plastic clips hold the soft tub-liner in place.
