**THE SAFEST SHOWER  
IN THE WORLD**

**EXCEL SHOWER** was created from the HCS project (which began in February 2017).

The project has evolved over time to reach the design and functionality it has now.

Today's society is constantly seeking to improve the safety and quality in use of all products, but without renouncing design.

**We have succeeded in doing this and our Shower is the one that offers the greatest safety in use in the world.**

As shown by the many national and International awards we have received.

Manufactured in Europe, respecting all the required control and quality processes (Class I) as well as protecting the environment.

## RECOMMENDED

### Elderly persons

As we grow old, we lose our mobility and reflexes. For this reason, Excel Shower is the best solution for maintaining our daily hygiene and ensuring safety in the shower, in addition to guaranteeing the privacy that we all need.

### Persons with reduced mobility

Excel Shower will change the way in which disabled people shower. Its automatic swivel, height-adjustable system allows all persons to enter easily and in safety and with the necessary autonomy that each person requires.

### In the home

Our homes grow old with us, but they must be adapted to our needs. At present there are no solution for changing or replacing our bathtubs or showers with safe, smart, innovative systems. Excel shower has revolutionised the bathrooms in our homes to ensure our privacy and safety in our daily hygiene and will definitive bring complete autonomy and added value to your life and home.

### Homes / Hospitals

To help our elderly and others, it will also assist our carers to preserve their physical integrity by preventing unnecessary effort and falls inside and outside the shower, as well as pain and bruising due to excess strain. The Excel Shower system guarantees the elimination of all these problems, making life more comfortable and easy.

# The Safest Shower in the World

### Safety

Easy access to the seat, and once seated, all you have to do is relax and shower with no risk.

### Autonomy

Its design and remote control operation allows you to enter the shower without assistance.

### Versatility

Its versatile design means the shower can be used by the whole family.

### Comfort

Enjoy a pleasant shower with the comfort that the HCS shower offers. With different setting options that provide all the comfort you need.

# ACCESSIBILITY AND IN YOUR SHOWER

## HEIGHT-ADJUSTABLE SEAT

It provides accessibility and safety in your daily shower routine.

Adjust the seat height in order to move **with minimum effort** and in complete safety.

To enter, adjust the shower seat to a lower height that the wheelchair seat. Enter the shower in a single movement, with practically no effort.

To get out, the shower seat must be slightly higher than the wheelchair seat.

*Enter the shower*

*with minimal effort*

## SWIVEL SYSTEM

Enter without moving. Enter in a sitting position, with no risk.

It consists of an independent rotating module that rotates on a shaft embedded in the floor, with the capacity to bear the weight of persons weighing up to 150 kg. Its next-generation motor has a gentle, low, safe speed.

*Enter the shower  
in a safe, sitting position*

# Autonomous, safe use

## OPTIMAL ACCESS

The seat can be adapted to the required height.

The seat design (which protrudes about 10cm) **guarantees access without any space between the shower seat and the wheelchair.**

### Adjust the seat to your wheelchair.

When entering, it is advisable to position the shower seat slightly lower than the wheelchair seat. This guarantees access with virtually no effort.

**Place the shower in the position that offers the best access.**

Bathrooms have obstacles and each user enters the shower in a different way. You can rotate the shower and adapt it to your needs to enter it.

### Place your feet on the footrest.

For maximum comfort, the shower has a footrest with a rough, padded finish. Your feet will be resting on it at all times, guaranteeing comfort and safety.

## WITH OR WITHOUT HELP

Enter the shower in a sitting position, effortlessly and without running

The HCS shower allows you to enter in a relaxed, sitting position with no risk of falling. The shower system with the best features in the market. Prevents accidents in the bathroom.

### With or Without Help

With a remote control that performs all the functions. Shower alone or with help.

### Enjoy your privacy

The HCS shower allows you to enter unassisted, in complete safety and with no risk of falling.

# Elegance and functionality

## Thermostat

The thermostat knob allows you to select the water at a certain temperature.

## Fixed rain shower head

A large shower head that increases the water spray and a high quality finish, with previously-treated water nozzles to prevent limescale deposits.

## Multifunctional hand held shower head

The hand held shower head has 3 functions in one, in addition to a PVC support that fits the hand perfectly, for improved handling and safety.

## Thermostat

The tap guarantees a constant, stable temperature without switching suddenly from hot to cold. There is also a safety device that blocks the tap at 38 degrees to prevent scalding.

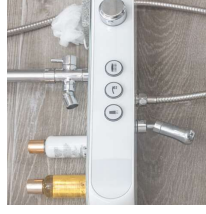

## Digital screen

You can set a temperature and know the exact number of degree of the water thanks to the LCD screen, which is activated automatically when you turn on the water.

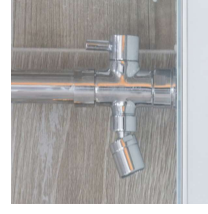

## Multifunctional design

Simple, rounded lines that match the Excel Shower cabin curves. The tap ledge can also be used to store soap dispensers, to facilitate showering.

## Handicap control

Enjoy your shower with the handicap knob in your hand. Its design, with a handle, provides maximum control and prevents it from slipping from your hand.

## Emptying valve

The valve allows you to empty the water from the pipes. That way, once the desired temperature is reached, the water will remain hot and not turn cold.

## Auxiliary kit

It provides an extra shower point, for use by the whole family.

## CARE DOOR

The best option for assistance in the shower.

Screen with two separate panels.

It allows you to assist the person in the shower without getting wet. The screen has two panels, offering you the option of assisting the user in the shower without getting splashed.

It can also be used as an entrance door to the shower as its handle is designed to lock both doors and open them at the same time.

## Safe assistance

*Dry yourself while you sit in the shower.*

### Ease of assistance.

The user can be assisted from the top door. It provides all the help that is needed.

## EXCELSHOWER GLASS PANELS

Optimal safety.

Ultra resistant, laminated, tempered glass.

Excel Shower works with maximum safety guarantees. The curved glass panels have been treated by tempering and subsequently laminated with a thickness of 1.52 (PVB). In the event of breaking, the whole panel can be fixed using an adhesive film, like car windscreens.

### Tempered glass

The flat glass panels are tempered, which means that if they break, the glass shatters into tiny pieces with no sharp edges, to reduce the risk of injury.

## RESIN BASE

Model exclusively for the HCS shower

### Non-slip resin.

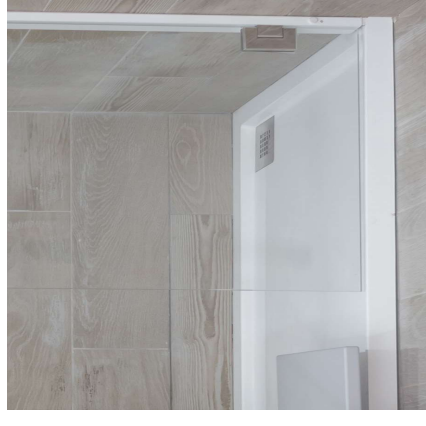

The HCS shower tray is pleasant to the touch. It is finished in white.

UNE EN 14527:2016+A1:2018  
UNE EN251:2012  
UNE EN 12633-2014  
1907/2006/EC

### Dry yourself in conditions of cleanliness.

Dry yourself while you sit, in safety and without wetting the bathroom floor, to keep it clean and dry.

For users with wheelchairs, the system enables the chair to be kept dry and within easy reach of the user.

## FOOTREST

For greater comfort, use the footrest when seated.

The footrest makes a difference in terms of comfort. Place your feet on it for improved comfort and safety while the cabin rotates during your shower. Raise it when you no longer need it. It won't take up much room in the shower.

Designed for the HCS Cabin, the footrest interior is made of material that is both flexible and rigid. Its rough but comfortable surface will prevent your feet from slipping on the surface. With a plastic finish for easy cleaning.

And rounded edges to prevent injury.

## COMFORT CUSHION

For maximum comfort, use the comfort cushion.

The comfort cushion provides increased comfort in the shower.

Its neutral density foam offers optimal protection in parts of the body with muscle atrophy. The perfect accessory for persons with problems in sitting.

◀ Comfortable surface.  
Design for special access.

▶ Model available with access to private parts.

## CASE

Protective case.

Reduces damage to the remote control due to accidental falls. Protects the remote control against water. You can take it into the shower cabin while you shower.

## UPS BATTERY

Enjoy your shower without interruptions.

To ensure a constant electricity supply, you can adapt the emergency battery for use in the shower, with every guarantee of operation.

It is constantly charged and so you can use the shower whenever you want.

## MAT

The non-slip mat provides a safe grip inside the shower with no interruptions.

The perfect accessory for a perfect grip when you stand up.

## SAFETY GRIP

If you want to stand up and shower, use the safety grip.

Ensure safe stability with the safety grip. Place it in a position that allows the user to use it at any time, for standing up or sitting down and to hold onto it while they shower. The perfect shower grip.

Fastened with screws for maximum safety.

Fastening with screws.

Fastening with suction cups.

## FOOTREST

The footrest provides better access for foot washing.

It will allow you to reach your feet more easily. You can wash your feet, cut your nails, etc.

# EXCELSHOWER

Different options for you to install it in any bathroom.

## 100% configurable

*Adaptability and privacy*

*Easy, convenient access*

### HCS O 95\*80m model

The ground level system. The HCS cabin can be installed in any bathroom without having to install a shower tray.

### HCS I 98\*80 model

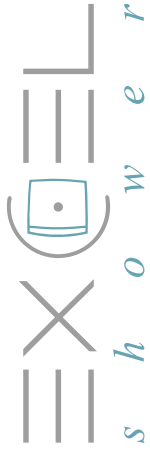

Make the most of all the functions in very small spaces with the HCS Square model.

### HCS II 160\*80 model

A complete, elegant shower for the whole family.

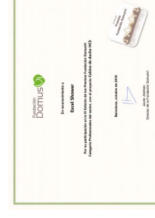

## ACKNOWLEDGEMENTS

**EXCEL SHOWER** has received different acknowledgements for its HCS Shower Cabin. The reason for this is that the HCS Shower Cabin provides a solution to a current demand by a very large sector of the world's population.
