Tactile2D

Tactile area 120 x 97 mm
10 point multitouch
Windows 10 Mini-PC
Bluetooth and wireless

Tactile2D

Touch pictures, graphic and Braille

This new small device was designed for independent work with a Windows 10 PC inside.

Works with your well-known applications and screen-readers like JAWS or NVDA.

Feel the graphics, Braille and pictures and edit them with the touch-sensitive surface.

Use WLANs and hotspots to show information from the internet.
