

## SECONDARY DRIVING CONTROLS

LEHMDIS provides drivers who can use only one arm or hand with a simple and comprehensive solution that allows them to operate all the vehicle's controls and help steer with a single hand.

Developed in collaboration with occupational therapists, the LEHMDIS is accessible and easy to manipulate whether the device is located on the left or right of the steering wheel.

The LEHMDIS multifunction device has 7 buttons and can operate up to 10 functions:

- > Headlights (dipped and main beam)
- > Wipers, indicators
- > Horn, etc.

# LEHMDIS

## CATÉGORIE

Controls and steering

## THE PLUSES

- > Ergonomic
