Company introduction

We are the leading manufacturer of 3-wheeled hand-bike for manual wheelchairs worldwide. For more than 10 years, Mijo Group have been focusing on developing, constructing and manufacturing drives units for manual wheelchairs. Our aim is the continual improvement of mobility for people with disabilities in order for them to achieve social integration and attain more quality of life.

Improving the everyday mobility and quality of life of wheelchair users with the help of our products – this is what motivates us.

Electric handbike

You can connect handbikes to a manual wheelchair in order to be able to moving the wheelchair with power handbike.

Attachable handbikes make it possible to drive longer and/or faster with a manual wheelchair, because it takes less power than hooping with the wheelchair.

According to the needs of different users, the frame claw needs to be adjusted in advance so that it can be mounted on wheelchairs of different diameters.

When you needn't use it or once the battery is run out, it's easy to separate the trailer from your wheelchair in a few minutes and remain the manual wheelchair's function. Wheelchair drive units.

MIJO

Color:

(Mijo also accept custom colours of Handbike body.)

Accessories:

| | |
|-----------------------|--|
| Product Name | MT01 electric handbike for wheelchair |
| Frame Material | 6061 Aluminum alloy frame |
| Motor | 36V 350W brushless hub motor |
| Controller | Intelligent controller |
| Battery | 36V 13AH (standard)/ 20AH Lithium battery |
| Charger | AC 100V-240V ,2 amps smart charger |
| Display | LED display |
| Light | Front LED light with horn |
| Throttle | Half-twist throttle |
| Brake | Disc-brake; Hand brake |
| Tire | Inches 12*2.5 |
| Handlebar | Folding handlebar |
| MAX Speed | 1st-15 km/h; 2nd-20 km/h; 3rd-25 km/h |
| Weight | 17kg with battery / 13.3kg without battery |
| Range | 60km |
| Charging Time | 5 to 6 hours |
